勾配	 The diagram shows a cross-section of a road with various data points and labels. The top row represents the road surface profile, with elevations ranging from 6050.0 to 6650.0. The bottom row represents the road width, with values ranging from 4.1 to 4.7. The middle section shows the road width and the road surface profile. The road surface profile is labeled with 'R=20' and 'R=25'. The road width is labeled with 'S' and 'A'. The road surface profile is labeled with 'S' and 'A'. The road width is labeled with 'S' and 'A'. The road surface profile is labeled with 'S' and 'A'. The road width is labeled with 'S' and 'A'. The road surface profile is labeled with 'S' and 'A'.
